BUSINESS AND ANTICIPATED BUSINESS PLAN

7. Describe in detail the business of the issuer and the anticipated business plan of the issuer.

NW Tech Capital, Inc., a Nevada corporation, incorporated on June 13, 1996, is listed on the OTC Pink Markets under the trading symbol NWTT. The Company was organized for the primary purpose of engaging in all facets of the business comprising the telecommunications industry and as a provider of long distance voice and data telecommunications.

The Company abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual franchise tax from 2011 to 2021 which resulted in its Nevada charter being permanently revoked and dissolved. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act.

On June 23, 2021, Alpharidge Capital, LLC, a shareholder of the Company, served a demand to the Company, at last address of record, to comply with the Nevada Secretary of State statues N.R.S. 78.710 and N.R.S. 78.150. On July 16, 2021, a petition was filed against the Company in the District Court of Clark County, Nevada, entitled “In the Matter of NW Tech Capital, Inc., a Nevada corporation” under case number A-21-837989-P by Alpharidge Capital, LLC, along with an Application for Appointment of Custodian, after several attempts to get prior management to revive the Company’s Nevada charter, which had been dissolved.

On August 31, 2021, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of Alpharidge Capital, LLC (the “Order”), as Custodian of the Company. Pursuant to the Order, the Alpharidge Capital, LLC (the “Custodian”) has the authority to take any actions on behalf of the Company, that are reasonable, prudent or for the benefit of pursuant to, including, but not limited to, issuing shares of stock and issuing new classes of stock, as well as entering in contracts on behalf of the Company. In addition, the Custodian, pursuant to the Order, is required to meet the requirements under the Nevada charter. On August 31, 2021, the Custodian appointed Frank I Igwealor, who is associated to Alpharidge Capital, LLC., as the Company’s sole officer, secretary, treasurer and director. On July 16, 2021, the Company filed a Certificate of Revival with the Secretary State of the State of Nevada, which reinstated the Company’s charter and appointed a new Resident Agent in Nevada.

The company is currently engaged with a forensic asset recovery consultant to help recover the assets of the company from previous management to make shareholders whole again. Management hopes to recover Company assets sufficient to allow the Company to return to its former telecommunications business and to profitability.

On the other hand, the custodian has engaged a group of entrepreneurs with whom NW Tech is launching its new business as discussed below:

.Overview

NW Tech seeks to create its BidAi platform that would usher in a new category of human interaction known as metaverse. Daily, millions of people from around the world seek to connect and play with friends on a metaverse platform, where together they play, learn, communicate, explore, and expand their friendships, all in 3D digital worlds that are entirely user-generated, built by the community of millions of other participants and active developers. NW Tech seeks to develop and deploy a platform that is powered by user-generated content and draws inspiration from gaming, entertainment, social media, and even toys.

OFFERING STATEMENT

10,000 Units of PP SAFE at \$1 per Unit			
	<i># Of Units</i>	<i>Total Proceeds</i>	<i>Net Proceeds</i>
<i>Target Offering</i>	10,000	\$10,000	\$9,200
<i>Maximum Amount</i>	100,000	\$100,000	\$92,000

Existing platforms like we envision here is referred to or categorized as the metaverse, a term often used to describe the concept of persistent, shared, 3D virtual spaces in a virtual universe. The idea of a metaverse has been written about by futurists and science fiction authors for over 30 years. With the increase in powerful consumer computing devices, cloud computing, and high bandwidth internet connections, the concept of the metaverse is materializing.

Our BidAi Metaverse platform would consist of the BidAi Client, the BidAi Studio, and the BidAi Cloud. BidAi Client would be the application that allows users to explore 3D digital worlds. BidAi Studio would be the toolset that allows developers and creators to build, publish, and operate 3D experiences and other content accessed with the BidAi Client. BidAi Cloud includes the services and infrastructure that will power our gaming platform platform.

Our mission is to build a gaming platform platform that enables shared experiences among millions of users. We will constantly improve the ways in which the BidAi Platform supports shared experiences, ranging from how these experiences are built by an engaged community of developers to how they are enjoyed and safely accessed by users across the globe.

The BidAi Platform has a number of key characteristics:

Identity. All users will have unique identities in the form of avatars that allow them to express themselves as whoever or whatever they want to be. These avatars are portable across experiences.

Friends. Users will interact with friends, some of whom they know in the real world and others who they meet on BidAi.

Immersive. The experiences on BidAi are 3D and immersive. BidAi Platform experiences are expected to become increasingly engaging and indistinguishable from the real world.

Anywhere. Users, developers and creators on BidAi are from all over the world. Further, the BidAi Client operates on iOS, Android, PC, Mac, and Xbox, and supports VR experiences on PC using Oculus Rift, HTC Vive and Valve Index headsets.

Low Friction. It will be simple to set up an account on BidAi, and free for users to enjoy experiences on the platform. Users can quickly traverse between and within experiences either on their own or with their friends. It will also be easy for developers to build experiences and then publish them to the BidAi Cloud so that they are then accessible to users on the BidAi Client across all platforms.

Variety of Content. BidAi will become a vast and expanding universe of developer and creator-built content. It is anticipated that by December 31, 2022, there would be over 2 million experiences on BidAi, and in 2023, over 1 million of these would be experienced in- community. There would also be millions of creator-built virtual items with which users can personalize their avatars.

Economy. BidAi will have a vibrant economy built on a currency called BidAix (token). Users who choose to purchase BidAix can spend the currency on experiences and on items for their avatar. Developers and creators earn BidAix by building engaging experiences and compelling items that users want to purchase. BidAi will enable developers and creators to convert BidAix back into real-world currency.

Safety. Multiple systems will be integrated into the BidAi Platform to promote civility and ensure the safety of our users. These systems are designed to enforce real-world laws, and are designed to extend beyond minimum regulatory requirements.

Growth at BidAi will be driven primarily by investment in technology and two mutually reinforcing network effects: content and social.

First, user-generated content, built by our community of developers and creators, powers our platform. As developers and creators build increasingly high-quality content, more users will be attracted to our platform. The more users on our platform, the higher the engagement and the more attractive BidAi becomes to developers and creators. With more users, more BidAix will be spent on our platform, incentivizing developers and creators to design increasingly engaging content and encouraging new developers and creators to start building on our platform.

Second, our platform will be social. When users join, they will typically play with friends. This will inspire them to invite more friends, who in turn, invite their friends, driving organic growth. The more friends that each of our users has playing together on the platform, the more valuable and engaging the platform becomes. This would drive more users to our platform through word of mouth from their existing friends on the platform.

Our Community

BidAi will be powered by user-generated content from our community of developers and creators who build immersive and engaging experiences found only on BidAi, as well as the vast majority of the items for customizing avatars. Upon signing up for BidAi, users would personalize their avatars by selecting body types, clothes, and gear. Users are then free to immerse themselves in the millions of developer-built experiences.

Our Users

We anticipate millions of daily active users across over 180 countries to enjoy experiences on BidAi across mobile, desktop and console platforms. Our users will be diversified across multiple dimensions, including age,

geography, platform and gender. Each day users can express themselves through their avatars, explore different worlds, and engage with others in the BidAi community.

Our Developers and Creators

We will offer users the ability to build engaging, immersive experiences that they can easily share with the BidAi community. Experiences refer to the various titles that can be enjoyed by our users on our platform. Users who create experiences will be called developers and those who create avatar items will be called creators. Developers can also build and sell custom tools and 3D models to help other developers create experiences. Collectively, our developers and creators will contribute to our platform in three ways: by building experiences for users to enjoy, by building avatar items for users to acquire and express themselves with, and by building tools and 3D models for other developers and creators to utilize.

We will measure the health and success of our developer and creator community based on their earnings and the user engagement in their experiences. As our platform scales, our monetizing developers and creators will enjoy meaningful earnings expansion over time, reflecting the increasing monetization of our platform and driving a growing incentive for our developers and creators to continue to build high-quality content.

Our Products and Technology

The BidAi Platform would be the underlying technology and infrastructure that supports shared experiences for an average of millions of daily active users. The platform is composed of three elements:

- **BidAi Client:** The application that allows users to explore 3D digital worlds.
- **BidAi Studio:** The toolset that allows developers and creators to build, publish, and operate 3D experiences and other content accessed with the BidAi Client.
- **BidAi Cloud:** The services and infrastructure that power the gaming platform

We need to invest substantial capital to build the BidAi Platform. 89% of our initial capital outlay and employees will be dedicated to building, maintaining, improving, and expanding it. Here is how our technology will supports the key characteristics of the BidAi Platform:

Identity

The BidAi avatar system will allow users to create and personalize their unique 3D identities. Our avatar technology supports a wide variety of character styles. The BidAi Client will feature the Avatar Editor, which enables users to manipulate the size and body shape of their avatars as well as equip their avatars with clothing, gear, animations, simulated gestures, or emotes, and other accessories from the Avatar Marketplace or Avatar Shop. Within most experiences, avatars appear exactly how they were configured in the Avatar Editor, creating a sense of persistent identity.

Friends

The BidAi Client will allow users to connect through various means, including detecting nearby players, or simply meeting in 3D experiences. The social graph created by these connections will be stored in the BidAi Cloud

and requires mutual opt-in to avoid unwanted communications. When a user chooses to join an experience, the BidAi Cloud is designed to automatically place that user into the same virtual environment as others connected through the social graph. The BidAi Platform supports text-based chat among users sharing the same 3D experience and between users connected through the social graph.

Immersive

The BidAi Platform will allow developers to build deeply immersive 3D environments where users can share synchronous experiences with others, independent of where they may be physically. Developers use BidAi Studio to easily build 3D experiences that are then rendered and simulated on the BidAi Platform. The BidAi Client will leverage efficient low-level hardware-specific device APIs to efficiently render those experiences. To achieve an optimal balance between latency, scale, and consistency, computations for the simulation are distributed across BidAi Clients and the BidAi Cloud.

Low Friction

The BidAi Platform will give users the ability to interact with experiences almost instantly, on most popular client devices, and from anywhere in the world over existing broadband and cellular networks. With BidAi, developers can build an experience once and then expect that experience to operate consistently on all supported devices. The BidAi Cloud is central to enabling low-latency, responsive gameplay within 3D environments having millions of concurrent players. The BidAi Cloud will determine the format, level of detail, and priority of each asset sent through content delivery networks to a user's device in order to optimize for the capabilities and bandwidth available to the device. When a user joins a 3D experience, the BidAi Cloud assigns that user to a particular game instance based on, among other considerations, the user's social graph, geographic location, spoken language, and age group. Developers have access to high-speed data stores in the BidAi Cloud where information about users and each simulated environment can be persisted. The majority of services operated by the BidAi Cloud are hosted in BidAi managed data centers.

Variety of Content

Developers and creators build nearly all of the content for the BidAi Platform. Developers build, publish, and operate 3D experiences with BidAi Studio, a suite of tools accessible to all skill levels, from novice to professional. Teams can work together using built-in access control management and collaborative editing. Once content is built, it can be replicated and shared across multiple experiences giving developers the ability to scale their efforts and make rapid updates. Developers can share their work with other developers through the Studio Marketplace. BidAi provides developers with reference material, tutorials, community forums, and analytics to build their creations.

Anywhere

The BidAi Platform will serve a global audience.. Developers can build experiences in their native language and then, using machine translation and advanced pattern recognition, the BidAi Cloud automatically translates those experiences into other languages. Localization and compliance systems will be embedded within the BidAi Client and BidAi Cloud to help lower cultural barriers and enable our developers to meet regional requirements with little to no additional effort.

Economy

BidAi intends to become a vibrant economy built on a currency called BidAix, which can be purchased through the BidAi Client and website. Users can also acquire BidAix through a monthly subscription to BidAi Premium. Developers and creators earn BidAix by selling access to virtual content. Developers can also earn BidAix by driving engagement of Premium subscribers through an engagement-based payout system. When Premium subscribers spend time in a developer's experience, that developer earns a prorated share of the user's monthly subscription fee. Engagement-based payouts incentivize developers to invest in the engagement of their experiences. BidAi allows developers and creators to convert earned BidAix into the real-world currency of their choice through our Developer Exchange Program.

Safety

Multiple systems will be integrated into the BidAi Platform to promote civility and ensure the safety of our users. These systems are designed to enforce our policies, protect users' personal information, and abide by local laws. We leverage text-filtering, content moderation systems, and automated systems to proactively identify behaviors that may violate our policies. A human review team will be continuously operating to evaluate flagged experiences/assets. Assets refer to images, meshes, audio files, and video files that developers upload to BidAi to include in their experiences. BidAi will operate a customer service portal that profiles self-help information along with ways to contact BidAi via email or from within the BidAi Client.

Safety and Digital Civility

We aspire to build a safe and civil online society. We have no tolerance on our platform for content or behavior that violates our rules. Safety and civility systems are built into our platform and apply to every experience. In many instances, our systems extend beyond minimum regulatory requirements.

Our platform is designed to comply with Children's Online Privacy Protection Act and GDPR regulations. We work closely with regulators, authorities, and safety groups in many countries. We endeavor to promptly report any suspected child exploitation or abuse materials to the relevant authorities.

We will partner with leading global organizations focused on child and internet safety. We will join and become members of various organizations with a goal of cross-industry collaboration, knowledge and technology exchange in areas of user safety and child safety. We will continue to work diligently with other digital platforms to report bad actors and inappropriate content so that they can also take appropriate actions on their platforms.

The BidAi Economy

We intend to support our developer and creator community by giving them the tools to build, publish, operate, and monetize content. Our economy enables developers and creators to generate income through BidAi.

When users sign up for BidAi, they can create an avatar and explore the vast majority of our experiences for free. Most free experiences allow users to spend BidAix by purchasing experience-specific enhancements and items such as clothing accessories and emotes from our Avatar Marketplace or Avatar Shop. BidAi retains a portion of every BidAix transaction and distributes the rest to developers and creators.

Users can purchase BidAix in two ways, as one-time purchases or via BidAi Premium, a subscription service that is billed monthly and includes discounted BidAix, access to exclusive in-experience benefits, exclusive and discounted marketplace items, and the ability to buy, sell, and trade certain Avatar items.

<i>Target Offering</i>	10,000	\$10,000	\$9,200
<i>Maximum Amount</i>	100,000	\$100,000	\$92,000

- We plan to offer developers and creators four mechanisms to earn BidAix:
- sale of access to their experiences and enhancements in their experiences;
- engagement-based payouts, which reward developers for the amount of time that Premium subscribers spend in their experiences;
- sale of content and tools between developers; and
- sale of items to users through the Avatar Marketplace.

Earned BidAix will be deposited into the virtual accounts of the developers and creators, who can convert BidAix into the real-world currency of their choice if they qualify for and are registered in our Developer Exchange Program. Developers and creators may not always cash out their BidAix to real-world currency. Some may choose to reinvest their BidAix into developer tools, promote their experiences through our internal ad network, or spend the BidAix as any other user would.

Our Growth Strategies

We believe that the BidAi Platform has the potential to transform how people express themselves, socialize, play, learn, work, and transact together around the world. We are focused on the following key growth strategies:

Platform Extension: We will continually invest in the BidAi Platform, including significant investments in high fidelity avatars, more realistic experiences, 3D spatial audio technology, and other social features. These investments should enable BidAi to support gaming platform in the entertainment, learning and business markets.

Age Demographic Expansion: As a result of platform extension, developers and creators are now able to build higher quality experiences and content that appeals to an older age demographic. We believe there is significant potential for us to increase our penetration and engagement across all age demographics.

International Reach: We believe there is significant potential for us to grow the global reach of our platform. We believe some of that will occur by the same organic, word of mouth user and developer growth that we anticipate to see in the U.S. market. In addition, we will be investing in technology that will also enhance our growth around the world. For example, we believe that features such as automated translation and built-in regional compliance will enable us to scale usage in global markets.

Monetization: We believe there is significant potential to increase monetization on our platform. First, we are actively working with our developer and creator community to help them improve their monetization. Second, we recently introduced our subscription service, BidAi Premium, which we believe will increase our conversion of our free users to paying users and the retention of our paying users. Finally, we expect to work with leading brands to build unique marketing opportunities on the BidAi Platform.

RISK FACTORS

A crowdfunding investment involves risk. You should not invest any funds in this offering unless you can afford to lose your entire investment.

In making an investment decision, investors must rely on their own examination of the issuer and the terms of the offering, including the merits and risks involved. These securities have not been recommended or approved by any federal or state securities commission or regulatory authority. Furthermore, these authorities have not passed upon the accuracy or adequacy of this document.

The U.S. Securities and Exchange Commission does not pass upon the merits of any securities offered or the terms of the offering, nor does it pass upon the accuracy or completeness of any offering document or literature.

8. Discuss the material factors that make an investment in the issuer speculative or risky:

RISK FACTORS

Readers and prospective investors in our common stock should carefully consider the following risk factors as well as the other information contained or incorporated by reference in this prospectus.

If any of the following risks actually occurs, our financial condition, results of operations and liquidity could be materially adversely affected. If this were to happen, the value of our common stock could decline, and if you invest in our common stock, you could lose all or part of your investment.

The discussion below highlights some important risks we have identified related to our business and operations and an investment in shares of our common stock, but these should not be assumed to be the only factors that could affect our future performance and condition, financial and otherwise. We do not have a policy of updating or revising forward-looking statements except as otherwise required by law, and silence by management over time should not be construed to mean that actual events are occurring as estimated in such forward-looking statements.

The SEC requires the company to identify risks that are specific to its business and its financial condition.

Risks Relating to Investing in a Start-up Company

Investing in early-stage companies is very risky, highly speculative, and should not be made by anyone who cannot afford to lose their entire investment. Unlike an investment in a mature business where there is a track record of revenue and income, the success of a startup or early-stage venture often relies on the development of a new product or service that may or may not find a market. Before investing, you should carefully consider the specific risks and disclosures related to both this offering type and the company.

Risks Relating to Our Company

Our financial condition and results of operations will fluctuate from quarter to quarter, which makes them difficult to predict and they may not fully reflect the underlying performance of our business.

Our quarterly results of operations have fluctuated in the past and will fluctuate in the future, both based on the seasonality of our business as well as external factors impacting the global economy, our industry and our company. Additionally, the current scale of our business makes it difficult to forecast our future results. As a result, you should not rely on our past quarterly results of operations as indicators of future performance. You should take into account the risks and uncertainties frequently encountered by companies in rapidly evolving market segments. Our financial condition and results of operations in any given quarter can be influenced by numerous factors, many of which we are unable to predict or are outside of our control, including:

Our business is affected by seasonal demands, and our quarterly operations results fluctuate as a result.

- our ability to maintain and grow our user base and user engagement;
- our ability to retain and grow our developer base and encourage them to continue developing experiences on our platform;
- the level of demand for our platform;
- the development and introduction of new or redesigned features on our platform or our competitors' platforms;
- seasonal fluctuations in user engagement on our platform;
- our pricing model;
- increases in marketing, sales, and other operating expenses that we may incur to grow and expand our operations and to remain competitive;
- our ability to successfully expand internationally and penetrate key demographics;
- our ability to maintain operating margins, cash used in operating activities, and free cash flow;
- system failures or actual or perceived breaches of security or privacy, and the costs associated with such failures, breaches and remediations;
- inaccessibility of our platform, or certain features within our platform, due to third-party actions;

10,000 Units of PP SAFE at \$1 per Unit			
	# Of Units	Total Proceeds	Net Proceeds
Target Offering	10,000	\$10,000	\$9,200
Maximum Amount	100,000	\$100,000	\$92,000

Historically our business has been highly seasonal, with the highest percentage of our sales occurring in the fourth quarter when holidays permit our users to spend increased time on our platform, and we expect this trend to continue. We may also experience fluctuations due to factors that may be outside of our control that affect user or developer and creator engagement with our platform. For example, we have also seen an increase in activity on our platform as a result of shelter-in-place policies instituted in response to the COVID-19 pandemic, and we do not expect these activity levels to be sustained. Additionally, activity levels may further decrease, including below historic levels as the full impacts of the pandemic, including the rollout of the COVID-19 vaccine on society and the global economy, become clearer. We also seek to further develop the live experiences available on our platform, such as virtual concerts, classrooms, meetings, and conferences, and to offer commercial partners with branding opportunities in conjunction with key events, such as a product launch. These episodic experiences may also contribute to fluctuations in our quarterly results of operations. As our business matures, other seasonal trends may develop or these existing seasonal trends may become more extreme.

• **The recent global COVID-19 outbreak has significantly affected our business and operations.**

The outbreak of the novel coronavirus and the COVID-19 disease that it causes has evolved into a global pandemic. In light of the uncertain and rapidly evolving situation relating to the spread of COVID-19, we have taken precautionary measures intended to minimize the risk of the virus to our employees and the communities in which we operate, including temporarily closing our offices worldwide and virtualizing, postponing, or canceling user, developer, creator, employee, or industry events, which may negatively impact our business.

• **Will there be sufficient market for our products and at what price point?** We will only succeed if there is sufficient demand for our product and services. Customers must believe that our product and services enable them to make better healthcare decisions and enhance diagnosis of health issues at a reasonable price. Moreover, they must be willing to continue to pay for our services at a level that allows the company to generate a profit.

• **This is a development stage company.** Our current business plan was developed in 2021. We have only recently launched our website, www.nwtechcapital.us and have no revenues. If you are investing in this company, it's because you believe in the idea and the market opportunity, the quality of the team, and the direction of the business to date.

• **We compete with other companies.** A number of competitors exist that either provide better products or services. Not all of these companies currently charge for their services at a level that allows them to be profitable. As this area of science grows in popularity, these competitors and other companies may directly compete with us, as limited barriers to entry exist at this point.

• **Our accountant has included a “going concern” note in its review report.** We may not have enough funds to sustain the business until it becomes profitable. Our ability to remain in business is reliant on either generating sufficient cash flows, raising additional capital, or likely a combination of the two. Additionally, even if targeted funds are raised, it is likely that we will need to raise additional funds in the near future.

• **We depend on a small management team.** We depend on the skill and experience of our President, Frank Igwealor. Mr. Igwealor has responsibilities to other companies and is not currently a paid employee. If demand for our product is high, our ability to raise sufficient capital may have an impact on our ability to attract and hire the right talent.

• **We are controlled by our officer, director and a majority shareholder.** Frank Igwealor holds a majority of our voting stock, and at the conclusion of this offering will continue to hold a majority of the company's

common stock. Investors in this offering will not have the ability to control a vote by the stockholders or the board of directors.

• **The company will need to raise additional money in the future.** We might not sell enough securities in this offering to meet our operating needs and fulfill our plans, in which case we will cease operating and you will lose your investment. Even if we raise everything at or above our targeted funds, it is likely that we will need to raise additional funds in the future. The ability to raise funds will always be a risk until we achieve sustainable profitability, which we currently cannot predict. Even if we do successfully raise more funds after this offering, the terms of that offering could result in a reduction in the value of your investment in the company, as later stage investors may get more favorable terms.

• **It is difficult for us to accurately predict our earnings potential.** Because of our short operating history, it is more difficult to accurately assess growth rate and earnings potential. It is possible that our company will face many difficulties typical for early-stage companies.

As a new company we have a limited operating history.

The Company was organized in Wyoming. We have a limited operating history in the chemical sensing / testing industry upon which you may evaluate our business and prospects. We are in the early stages of our business and have not yet commenced full-scale operations. Accordingly, we are in the initial phase, and our activities to date have involved research and development, business planning, market testing and efforts to raise startup capital. Our business and prospects must be considered in light of the risk, expense and difficulties frequently encountered by pre-revenue companies in early stages of development, particularly companies in highly competitive and evolving markets. If we are unable to effectively allocate our resources, manufacture our products, generate sales, or obtain and grow our customer base, our business operating results and financial condition would be adversely affected and we may be unable to execute our business plan, and our business could fail. Investors could therefore be at risk of losing their investment.

We expect losses in the foreseeable future.

Excluding the effect of any future non-operating gains, we expect to incur losses for the foreseeable future and, if we ever generate revenues, or have profits, we may not be able to sustain them. Our expenses will increase as we build an infrastructure to implement our business model. For example, we may hire additional employees, expand information technology systems, and lease more space for our corporate offices. In addition, we plan to significantly increase our operating expenses to:

- acquire customers
- explore opportunities and alliances with other companies; and
- facilitate business arrangements.

Our success is dependent on our key personnel.

We believe that our success will depend on the continued employment of our senior management and key personnel. If one or more members of our senior management were unable or unwilling to continue in their present positions,

our business and operations could be disrupted and this could put the overall business at risk, and therefore investors could be at risk of losing their investments.

Projections are speculative and are based upon a number of assumptions

Any projected financial results prepared by or on behalf of the Company have not been independently reviewed, analyzed, or otherwise passed upon. Such “forward-looking” statements are based on various assumptions, which assumptions may prove to be incorrect. Such assumptions include, but are not limited to (i) the future status of local, regional and international economies, (ii) anticipated demand for our products, (iii) anticipated costs associated with the development, marketing, sales and distribution of our products, and (iv) anticipated procurement and retention of a customer base. Accordingly, there can be no assurance that such projections, assumptions, and statements will accurately predict future events or actual performance. Any projections of cash flow should be considered speculative and are qualified in their entirety by the assumptions, information and risks disclosed in this Memorandum. Investors are advised to consult with their own independent tax and business advisors concerning the validity and reasonableness of the factual, accounting and tax assumptions. No representations or warranties whatsoever are made by the Company, its affiliates or any other person or entity as to the future profitability of the Company or the results of making an investment in the Shares. If our future projections end up being significantly different than currently projected, our business could be greatly impacted. Our business therefore may not be able to sustain itself without the projected future revenues. The business could be at risk of closing, and investors may therefore be at risk of losing their investments.

We may not effectively manage growth.

The anticipated growth of the Company’s business will result in a corresponding growth in the demands on the Company’s management and its operating infrastructure and internal controls. While we are planning for managed growth, any future growth may strain resources and operational, financial, human and management information systems, which may not be adequate to support the Company’s operations and will require the Company to develop further management systems and procedures. There can be no guarantee that the Company will be able to develop such systems or procedures effectively on a timely basis. The failure to do so could have a material adverse effect upon the Company’s business, operating results and financial condition. Investors could therefore be at risk of losing their investments if growth is not managed effectively.

Our efficiency may be limited while our current employees and future employees are being integrated into our operations.

In addition, we may be unable to find and hire additional qualified management and professional personnel to help lead us. There is competition for qualified personnel in the area of the Company’s activities, and there can be no assurance that the Company will be able to attract and retain qualified personnel necessary for the development of our business. If this business cannot effectively hire employees to help the company grow, the business could be at risk overall of not succeeding, and investors therefore may be at risk of losing their investment.

We expect our expenses to grow as the Company grows.

Our expenses will increase as we build infrastructure to implement our business plan. For example, we may hire additional employees, expand our product offerings, and lease more space for our corporate offices. This poses a risk to the financial forecasts and current financial model of the Company.

The Company may not reach its sales goals. The Company has forecasted its capitalization requirements based on sales goals and cost containment measures; any reduction to these forecasts could make it difficult for the company to achieve its projected growth, which would affect available cash and working capital, ultimately affecting the Company's financial condition. This could put the investor at risk of losing their investment.

The Company may require additional financing to support working capital needs.

The Company may need to explore additional financing transactions that management determines are in the best interest of the Company, including, without limitation, commercial debt transactions, private offerings of debt or equity securities, a rights offering, and other strategic alternatives. Such additional financing may not be available to the Company, or, if available, the Company may be unable to undertake such additional financing on terms that are advantageous to the Company. If the Company fails to raise additional capital in such an offering, or through other fund raising efforts, such a failure could have a material adverse effect on the Company, and investors in this Offering could be at greater risk of losing their investments due to the inability of the business to proceed with enough working capital to effectively run the Company.

If the Company incurs commercial debt, there may be risks associated with such borrowing.

If the Company incurs commercial indebtedness, a portion of its cash flow will have to be dedicated to the payment of principal and interest on such indebtedness. Typical loan agreements also might contain restrictive covenants, which may impair the Company's operating flexibility. Such loan agreements would also provide for default under certain circumstances, such as failure to meet certain financial covenants. A default under a loan agreement could result in the loan becoming immediately due and payable and, if unpaid, a judgment in favor of such lender which would be senior to the rights of shareholders of the Company. A judgment creditor would have the right to foreclose on any of the Company's assets resulting in a material adverse effect on the Company's business, operating results or financial condition.

Many of our competitors have greater brand recognition and greater financial, marketing and other resources.

Many of our competitors have greater brand recognition, and greater financial, marketing, and other resources than the Company. This may place us at a disadvantage in responding to our competitors' pricing strategies, technological advances, advertising campaigns, strategic alliances and other initiatives. Consequently, such competitors may be in a better position than the Company to take advantage of customer acquisition and business opportunities, and devote greater resources to marketing and sale of their product offerings. There cannot be any certainty that the Company will be able to compete successfully. If the Company cannot break through and compete successfully, investors may be at risk of losing their investment.

We may not be able to protect our intellectual property rights throughout the world.

The laws of some foreign jurisdictions do not protect intellectual property rights to the same extent as in the United States and many companies have encountered significant difficulties in protecting and defending such rights in foreign jurisdictions. If we encounter such difficulties in protecting or are otherwise precluded from effectively protecting our intellectual property rights in foreign jurisdictions, our business prospects could be substantially harmed.

Litigation regarding patents, patent applications and other proprietary rights may be expensive and time consuming. If we are involved in such litigation, it could cause delays in bringing products to market and harm our ability to operate.

Our success will depend in part on our ability to operate without infringing the proprietary rights of third parties. Other parties may hold or obtain patents in the future and allege that the use of our technologies infringes these patent claims or that we are employing their proprietary technology without authorization.

In addition, third parties may challenge or infringe upon our existing or future patents. Proceedings involving our patents or patent applications or those of others could result in adverse decisions regarding: the patentability of our inventions relating to our products; and/or the enforceability, validity or scope of protection offered by patents relating to our products.

Even if we are successful in these proceedings, we may incur substantial costs and divert management time and attention in pursuing these proceedings, which could have a material adverse effect on us. If we are unable to avoid infringing the patent rights of others, we may be required to seek a license, defend an infringement action or challenge the validity of the patents in court. Patent litigation is costly and time consuming. We may not have sufficient resources to bring these actions to a successful conclusion. In addition, if we do not obtain a license, develop or obtain non- infringing technology, fail to defend an infringement action successfully or have infringed patents declared invalid, we may: incur substantial monetary damages; encounter significant delays in bringing our products to market; and/or be precluded from participating in the manufacture, use or sale of our products.

If our trademarks and trade names are not adequately protected, then we may not be able to build name recognition in our markets of interest and our business may be adversely affected.

Our registered or unregistered trademarks or trade names may be challenged, infringed, circumvented or declared generic or determined to be infringing on other marks. We may not be able to protect our rights to these trademarks and trade names, which we need to build name recognition by potential partners or customers in our markets of interest. Over the long term, if we are unable to establish name recognition based on our trademarks and trade names, then we may not be able to compete effectively and our business may be adversely affected.

We may be unable to adequately prevent disclosure of trade secrets and other proprietary information.

We rely on trade secrets to protect our proprietary technologies, especially where we do not believe patent protection is appropriate or obtainable; however, trade secrets are difficult to protect. We will rely in part on confidentiality agreements with our employees, consultants, outside scientific collaborators, sponsored researchers, and other advisors to protect our trade secrets and other proprietary information. These agreements may not effectively prevent disclosure of confidential information and may not provide an adequate remedy in the event of unauthorized disclosure of confidential information. In addition, others may independently discover our trade secrets and proprietary information. Costly and time-consuming litigation could be necessary to enforce and determine the scope of our proprietary rights, and failure to obtain or maintain trade secret protection could adversely affect our competitive business position.

Public health epidemics or outbreaks could adversely impact our business.

In December 2019, a novel strain of coronavirus (COVID-19) emerged in Wuhan, Hubei Province, China. While initially the outbreak was largely concentrated in China and caused significant disruptions to its economy, it has now spread to several other countries and infections have been reported globally. The extent to which the coronavirus

impacts our operations will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the duration of the outbreak, new information which may emerge concerning the severity of the coronavirus and the actions to contain the coronavirus or treat its impact, among others. In particular, the continued spread of the coronavirus globally could adversely impact our operations and could have an adverse impact on our business and our financial results.

Risks Relating to Our Securities

These securities are offered under an exemption from registration; however, the U.S. Securities and Exchange Commission has not made an independent determination that these securities are exempt. If a market for our common stock does not develop, shareholders may be unable to sell their shares.

Our common stock is quoted under the symbol "NWTT" on the OTC PINK Market operated by OTC Markets Group, Inc., an electronic inter-dealer quotation medium for equity securities. We do not currently have an active trading market. There can be no assurance that an active and liquid trading market will develop or, if developed, that it will be sustained.

Our securities are very thinly traded. Accordingly, it may be difficult to sell shares of our common stock without significantly depressing the value of the stock. Unless we are successful in developing continued investor interest in our stock, sales of our stock could continue to result in major fluctuations in the price of the stock.

Because we are subject to the "Penny Stock" rules, the level of trading activity in our stock may be reduced.

The Securities and Exchange Commission has adopted regulations which generally define "penny stock" to be any listed, trading equity security that has a market price less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exemptions. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer must also provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. In addition, the penny stock rules generally require that prior to a transaction in a penny stock, the broker-dealer makes a special written determination that the penny stock is a suitable investment for the purchaser and receives the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for a stock that becomes subject to the penny stock rules which may increase the difficulty Purchasers may experience in attempting to liquidate such securities.

Effect of Amended Rule 15c2-11 on the Company's securities.

The SEC released and published a Final Rulemaking on Publication or Submission of Quotations without Specified Information amending Rule 15c2-11 under the Exchange Act ("Rule 15c2-11," the "Amended Rule 15c2-11"). To be eligible for public quotations on an ongoing basis, Amended Rule 15c2-11's modified the "piggyback exemption" that required that (i) the specified current information about the company is publicly available, and (ii) the security is subject to a one-sided (i.e. a bid or offer) priced quotation, with no more than four business days in succession without a quotation. Under Amended Rule 15c2-11, shell companies like the Company (and formerly suspended securities) may only rely on the piggyback exemption in certain limited circumstances. The Amended Rule 15c2-11 will require, among other requirements, that a broker-dealer has a reasonable basis for believing that information about the issuer of securities is accurate. Our security holders may find it more difficult to deposit common stock

with a broker-dealer, and if deposited, more difficult to trade the securities on the Pink Sheets. The Company intends to provide the specified current information under the Exchange Act but there is no assurance that a broker-dealer will accept our common stock or if accepted, that the broker-dealer will rely on our disclosure of the specified current information.

We do not expect to pay dividends in the foreseeable future. Any return on investment may be limited to the value of our common stock.

We do not anticipate paying cash dividends on our common stock in the foreseeable future. The payment of dividends on our common stock will depend on earnings, financial condition and other business and economic factors affecting it at such time as the board of directors may consider relevant. If we do not pay dividends, our common stock may be less valuable because a return on your investment will occur only if our stock price appreciates.

Provisions in the Delaware Statutes and our Bylaws could make it very difficult for an investor to bring any legal actions against our directors or officers for violations of their fiduciary duties or could require us to pay any amounts incurred by our directors or officers in any such actions.

Members of our board of directors and our officers will have no liability for breaches of their fiduciary duty of care as a director or officer, except in limited circumstances, pursuant to provisions in the Delaware Statutes and our Bylaws unless it is proven that (1) the director's or officer's act or failure to act constituted a breach of his or her fiduciary duties as a director or officer and (2) his or her breach of those duties involved intentional misconduct, fraud or a knowing violation of law. This provision is intended to afford directors' and officers' protection against and to limit their potential liability for monetary damages resulting from suits alleging a breach of the duty of care by a director or officer. Accordingly, you may be unable to prevail in a legal action against our directors or officers even if they have breached their fiduciary duty of care. In addition, our Bylaws allow us to indemnify our directors and officers from and against any and all costs, charges and expenses resulting from their acting in such capacities with us. This means that if you were able to enforce an action against our directors or officers, in all likelihood, we would be required to pay any expenses they incurred in defending the lawsuit and any judgment or settlement they otherwise would be required to pay. Accordingly, our indemnification obligations could divert needed financial resources and may adversely affect our business, financial conditions, results of operations and cash flows, and adversely affect prevailing market prices for our common stock.

Management has broad discretion as to the use of proceeds.

The net proceeds from this Securities Offering will be used for the purposes described under "USE OF PROCEEDS." The Company reserves the right to use the funds obtained from this Offering for other similar purposes not presently contemplated, which it deems to be in the best interests of the Company in order to address changed circumstances or opportunities. This poses a risk to an investor should they be relying on current use of proceeds forecasts for the investment as business conditions may require a change of the use of these funds.

We have used an arbitrary offering price. The offering price per unit was arbitrarily determined by the Company and is unrelated to specific investment criteria, such as the assets or past results of the Company's operations. In determining the offering price, the Company considered such factors as the prospects, if any, of similar companies, the previous experience of management, the Company's anticipated results of operations, and the likelihood of acceptance of this offering. Please review any financial or other information contained in this offering with qualified persons to determine its suitability as an investment before purchasing any shares in this offering.

If we make mistakes or have unforeseen things happen to us, our suppliers, partners, vendors, etc, or the world, we can make little or no profit and can be driven out of business.

THE BOTTOM LINE:

Investment in the securities of smaller companies can involve greater risk than is generally associated with investment in larger, more established companies. All investments can result in significant or total loss of your loan and/or investment. If we do well, the stock should do well also, yet life offers no guarantees and neither can we. If we make mistakes or have unforeseen things happen to us, our suppliers or the world, we can make little or no profit and can be driven out of business. We cannot guarantee success, return on investment, or repayment of loans.

Please only invest what you can afford to lose.

THE OFFERING

9. What is the purpose of this offering?

We intend to use part of the funds from this offering to do a forensic audit to identify assets that belong to the company. We believe that there are assets that past management along with predatory lenders have mis-managed and we intend to vigorously enforce the rights of the company. The other part of the fund from this offering would be used to fund working capital.

10. How does the issuer intend to use the proceeds of this offering?

	If Target Offering Amount Sold	If Maximum Offering Amount Sold
Total Proceeds	\$10,000.00	\$100,000.00
Less: Offering Expenses	\$800.00	8,000.00

Accounting	\$2,000.00	\$20,000.00
Platform	\$5,000.00	\$1,500.00
General Operating Capital	\$0.00	\$33,500.00
Total Use of Net Proceeds	\$9,200.00	\$92,000.00

The above figures are estimates and may change due to strategic, economic, and/or other factors.

11. How will the issuer complete the transaction and deliver securities to the investors?

The Company has set a minimum offering proceeds figure (the “minimum offering proceeds”) for this Offering of \$10,000. After the Minimum Offering Proceeds have been reached, and the company decides to close the offerings, the company has engaged Transfer Online Inc., a Stock Transfer Agent, to transfer the Securities to the newly acquired security holders.

12. How can an investor cancel an investment commitment?

NOTE: Investors may cancel an investment commitment until 48 hours prior to the deadline identified in these offering materials.

The intermediary will notify investors when the target offering amount has been met.

If the issuer reaches the target offering amount prior to the deadline identified in the offering materials, it may close the offering early if it provides notice about the new offering deadline at least five business days prior to such new offering deadline (absent a material change that would require an extension of the offering and reconfirmation of the investment commitment).

If an investor does not cancel an investment commitment before the 48-hour period prior to the offering deadline, the funds will be released to the issuer upon closing of the offering and the investor will receive securities in exchange for his or her investment.

If an investor does not reconfirm his or her investment commitment after a material change is made to the offering, the investor's investment commitment will be cancelled and the committed funds will be returned.

OWNERSHIP AND CAPITAL STRUCTURE

The Offering

13. Describe the terms of the securities being offered.

The securities being offered are Notes which are "Principal Protected Simple Agreements for Future Equity" ("SAFE Notes"). On the 366th day following the date of an investor's investment the Note will convert to Common Stock in the Company on the following basis: If the average volume weighted closing price (VWAP) of the stock for the previous five trading days is \$1.33 or less, the funds invested will convert into common stock at a price which is a 25% discount from the VWAP. If the VWAP is \$1.34 or more, the funds invested will convert into common stock at a price of \$1.00. For example, if the VWAP is \$1.00, an investor will receive the number of shares represented by the amount of his/her Note priced at \$0.75 (a 25% discount from \$1.00).

In addition, bonus shares are offered for larger investment amounts on the following basis: An investment of \$5,000 to \$14,999 will receive 25% Bonus Shares on conversion; an investment of \$15,000 to \$24,999 will receive 37.5% Bonus Shares on conversion; and an investment of \$25,000 or more will receive 50% Bonus Shares on conversion.

14. Do the securities offered have voting rights? Yes No
15. Are there any limitations on any voting or other rights identified above? Yes No Explain:
16. How may the terms of the securities being offered be modified?

Restrictions on Transfer of the Securities Being Offered

The securities being offered may not be transferred by any purchaser of such securities during the one-year period beginning when the securities were issued, unless such securities are transferred:

- (1) to the issuer;
- (2) to an accredited investor;
- (3) as part of an offering registered with the U.S. Securities and Exchange Commission; or

- (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

NOTE: The term “accredited investor” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person.

The term “member of the family of the purchaser or the equivalent” includes a child, stepchild, grandchild, parent, stepparent, grandparent, spouse or spousal equivalent, sibling, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law of the purchaser, and includes adoptive relationships. The term “spousal equivalent” means a cohabitant occupying a relationship generally equivalent to that of a spouse.

18. How may the rights of the securities being offered be materially limited, diluted or qualified by the rights of any other class of security identified above?

None

19. Are there any differences not reflected above between the securities being offered and each other class of security of the issuer? Yes No

20. How could the exercise of rights held by the principal shareholders identified in Question 6 above affect the purchasers of the securities being offered?

None

21. How are the securities being offered being valued? Include examples of methods for how such securities may be valued by the issuer in the future, including during subsequent corporate actions.

The price of the Securities was determined arbitrarily, does not necessarily bear any relationship to the Company’s asset value, net worth, revenues or other established criteria of value, and should not be considered indicative of the actual value of the Securities.

The Company has elected to use the Efficient Market Hypothesis theory. The Efficient Market Hypothesis assumes all stocks trade at their fair value.

22. What are the risks to purchasers of the securities relating to minority ownership in the issuer?

The right to demand current distributions from an operating business is limited. A majority owner, if she is committed to avoiding any distributions to a minority owner, can usually avoid making any distributions of profits. By establishing generous reserves for future expenses, paying a salary to herself or her relatives at the high range of what is reasonable, pre-paying expenses, investing in new business or new

equipment, leasing expensive cars, etc., a majority owner can spend enough that there are rarely any profits to be distributed. So long as the expenses are not grossly unreasonable, the investor, probably, won't be able to force the company to allow you to share in any of the current income of the company.

No right to participate in any management decisions of the company. The majority owner may make a decision that the investor think is bad and puts your interest in the company at risk. The investor may see the majority owner running the company into the ground. The investor can try to convince him that it is the wrong decision, but he doesn't have to take your calls.

The investor has limited rights, if any, to have your interest bought out. You may want to cash out your interest and do other things with the money. State law may give you the right to force the company to buy you out, but these rights are limited.

While the investor would be entitled to a share of any profits on sale of the entire business, a sale can be structured in a way to avoid any payout to minority owners, such as a sale of assets over time with the proceeds reinvested in another business.

23. What are the risks to purchasers associated with corporate actions including:

- **Additional issuances of securities:**

Following the investor's investment in the Company, the Company may sell interest to additional investors, which will dilute the percentage interest of the investor in the Company. The Investor might have the opportunity to increase its investment in the Company in such transaction, but such opportunity cannot be assured. The amount of additional capital needed by the Company, if any, will depend upon the maturity and the objectives of the Company.

- **Issuer repurchases of securities:**

The company may have the authority to repurchase its securities from shareholders, which may serve to decrease any liquidity in the market for such securities, decrease the percentage interests held by other similarly situated investors to the Investor, and create pressure on the investor to sell its securities to the Company concurrently.

- **A sale of the issuer or of assets of the issuer:**

As a minority owner of the Company, the Investor will have limited or no ability to influence a potential sale of the Company or a substantial portion of its assets. Thus, the investor will rely upon the executive management of the Company and the Board of Directors of the Company to manage the Company so as to maximize value for shareholders.

- **Transactions with related parties:**

The Investor should be aware that there will be occasions when the Company may encounter potential conflicts of interest in its operations. On any issue involving conflicts of interest, the executive management and the Board of Directors of the Company will be guided by their good faith judgement as to the Company's best interests. The Company may engage in transactions with affiliates, subsidiaries or other related parties, which may be on terms which are not arm's-length, but will be in all cases consistent with the duties of the management of the Company to its shareholders. By acquiring and interest in the company, the investor will be deemed to have acknowledged the existence of any such actual or potential conflicts of interest and to have waived any claim with respect to any liability arising from the existence of any such conflict of interest.

NW Tech Capital, Inc.NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS
DECEMBER 31, 2020
(Unaudited)**NOTE 1 – ORGANIZATION AND NATURE OF OPERATIONS**

NW Tech Capital, Inc. (the “Company”, “we”, “us” or “our”), a Nevada corporation, incorporated on June 13, 1996, is listed on the OTC Pink Markets under the trading symbol NWTT. The Company is organized for the primary purpose of engaging in all facets of the business comprising the telecommunications industry and is a provider of long distance voice and data telecommunications. The Company actively identifies other companies in the telecommunications industry for acquisition or strategic partnerships. These companies may be providers of long distance service, Voice over Internet Protocol providers, consulting companies, prepaid service companies, network management operations, or other companies in the telecommunication arena.

The Company had abandoned its business and failed to take steps to dissolve, liquidate and distribute its assets. It had also failed to meet the required reporting requirements with the Nevada Secretary of State, hold an annual meeting of stockholders and pay its annual franchise tax from 2011 to 2021 which resulted in its Nevada charter being permanently revoked and dissolved. The Company also failed to provide adequate current public information as defined in Rule 144, promulgated under the Securities Act of 1933, and was thus subject to revocation by the Securities and Exchange Commission pursuant to Section 12(k) of the Exchange Act.

The company incurred operating losses in 2010 and other previous years resulting in accumulated deficit of \$25,493,293 as at December 31, 2010. After their December 31, 2010 annual reports filed March 31, 2011, the Company stopped all forms of making public report of its operation and financial results.

On June 23, 2021, Alpharidge Capital, LLC, a shareholder of the Company, served a demand to the Company, at last address of record, to comply with the Nevada Secretary of State statues N.R.S. 78.710 and N.R.S. 78.150. On July 16, 2021, a petition was filed against the Company in the District Court of Clark County, Nevada, entitled “In the Matter of NW Tech Capital, Inc., a Nevada corporation” under case number A-21-837989-P by Alpharidge Capital, LLC, along with an Application for Appointment of Custodian, after several attempts to get prior management to revive the Company’s Nevada charter, which had been dissolved.

On August 31, 2021, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of Alpharidge Capital, LLC (the “Order”), as Custodian of the Company. Pursuant to the Order, the Alpharidge Capital, LLC (the “Custodian”) has the authority to take any actions on behalf of the Company, that are reasonable, prudent or for the benefit of pursuant to, including, but not limited to, issuing shares of stock and issuing new classes of stock, as well as entering in contracts on behalf of the Company. In addition, the Custodian, pursuant to the Order, is required to meet the requirements under the Nevada charter.

On August 31, 2021, pursuant to a Securities Purchase Agreement (SPA) the Custodian granted to Community Economic Development Capital, LLC. (CED Capital), 500 Series A preferred shares (convertible at 1 into 200,000,000 common shares, and the converted shares have 1/1 voting rights similar to all common stock) in exchange for \$35,000 which the Company used to fund the reinstatement of the Company with the State of Nevada, settlement of the Stock Transfer Agent’s balance. CED Capital also undertook to make all reasonable efforts to provide adequate current public information to meet the requirements under the Securities Act of 1933.

OFFERING STATEMENT

10,000 Units of PP SAFE at \$1 per Unit			
	<i># Of Units</i>	<i>Total Proceeds</i>	<i>Net Proceeds</i>
<i>Target Offering</i>	10,000	\$10,000	\$9,200
<i>Maximum Amount</i>	100,000	\$100,000	\$92,000

On August 31, 2021, the Custodian appointed Frank I Igwealor, who is associated to Alpharidge Capital, LLC., as the Company's sole officer, secretary, treasurer and director.

The purchaser of the 500 Series A preferred shares has control of the Company through super voting rights over all classes of stock and the 500 Series A preferred shares are convertible into 100,000,000,000 (500 Series A preferred shares multiplied by 200,000,000) shares of the Company's common stock. However, the court appointed control still remains with the Custodian until the Custodian files a petition with the District Court of Clark County, Nevada to relinquish custodianship and control of the Company.

On September 20, 2021, the Company filed a Certificate of Revival with the Secretary State of the State of Nevada, which reinstated the Company's charter and appointed a new Resident Agent in Nevada.

The company is currently engaged with forensic an assets recovery consultant to help recover the assets of the company from previous management to make shareholders whole again. The company is currently a non-operating holding company.

The Company intends to go after the Toxic lenders and predatory lenders that have been milking the corporation and depriving the shareholders of stability because of the nonstop dilutions they had subjected the company to these past years.

The Company recently wrote down all of its assets to zero following a change of management because new management had doubts about the value of each assets and their availability for the Company's utilization. Following the management change, the Company has funded its operation with advances from the new management. The company hopes to continue with this arrangement until it could raise sufficient capital to stand on its own feet. The company has also engaged with forensic accountants and assets recovery consultants to help recover the assets of the company from previous management and predatory lenders to make shareholders whole again.

NOTE 2 – BASIS OF PRESENTATION AND GOING CONCERN

Basis of Presentation

The Company has earned insignificant revenues from limited principal operations. Accordingly, the Company's activities have been accounted for as those of a "Development Stage Enterprise" as set forth in Financial Accounting Standards Board Statement No. 7 ("SFAS 7"). Among the disclosures required by SFAS 7 are that the Company's financial statements be identified as those of a development stage company, and that the statements of operations, stockholders' equity (deficit) and cash flows disclose activity since the date of the Company's inception.

Basis of Accounting

The accompanying consolidated financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States. All intercompany transactions have been eliminated.

Going Concern

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern, which contemplates the realization of assets and the liquidation of liabilities in the normal course of business. The Company currently has no operations with \$12,031,597 accumulated as of December 31, 2020 . The

<i>Maximum Amount</i>	100,000	\$100,000	\$92,000

Company intends to commence operations as set out below and raise the necessary funds to carry out the aforementioned strategies. The Company cannot be certain that it will be successful in these strategies even with the required funding.

These factors, among others, raise substantial doubt about the Company's ability to continue as a going concern. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 3 - SIGNIFICANT ACCOUNTING POLICIES

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

For purposes of the statement of cash flows, cash equivalents include demand deposits, money market funds, and all highly liquid debt instruments with original maturities of three months or less.

Financial Instruments

The FASB issued ASC 820-10, Fair Value Measurements and Disclosures, for financial assets and liabilities. ASC 820-10 provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. ASC 820-10 defines fair value as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. ASC 820-10 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required by the standard that the Company uses to measure fair value:

- Level 1: Quoted prices in active markets for identical assets or liabilities
- Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the related assets or liabilities.
- Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Concentrations and Credit Risks

The Company's financial instruments that are exposed to concentrations and credit risk primarily consist of its cash, sales and accounts receivable. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company's management plans to assess the financial strength and credit worthiness of any parties to which it extends funds, and as such, it believes that any associated credit risk exposures are limited.

<i>Target Offering</i>	10,000	\$10,000	\$9,200
<i>Maximum Amount</i>	100,000	\$100,000	\$92,000

The accounts of the Company are accounted for in accordance with the Statement of Financial Accounting Statements No. 52 ("SFAS 52"), "Foreign Currency Translation". The financial statements of the Company are translated into US dollars as follows: assets and liabilities at year-end exchange rates; income, expenses and cash flows at average exchange rates; and shareholders' equity at historical exchange rate.

Monetary assets and liabilities, and the related revenue, expense, gain and loss accounts, of the Company are re-measured at year-end exchange rates. Non-monetary assets and liabilities, and the related revenue, expense, gain and loss accounts are re-measured at historical rates. Adjustments which result from the re-measurement of the assets and liabilities of the Company are included in net income.

Share-Based Compensation

ASC 718, Compensation – Stock Compensation, prescribes accounting and reporting standards for all share-based payment transactions in which employee services are acquired. Transactions include incurring liabilities, or issuing or offering to issue shares, options, and other equity instruments such as employee stock ownership plans and stock appreciation rights. Share-based payments to employees, including grants of employee stock options, are recognized as compensation expense in the financial statements based on their fair values. That expense is recognized in the period of grant.

The Company accounts for stock-based compensation issued to non-employees and consultants in accordance with the provisions of ASC 505-50, Equity – Based Payments to Non-Employees. Measurement of share-based payment transactions with non-employees is based on the fair value of whichever is more reliably measurable: (a) the goods or services received; or (b) the equity instruments issued. The fair value of the share-based payment transaction is determined at the earlier of performance commitment date or performance completion date.

As of December 31, 2020 and 2019, respectively, there was \$0.00 of unrecognized expense related to non-vested stock-based compensation arrangements granted. There have been no options granted during the year ended December 31, 2020 and 2019, respectively.

Income Taxes

The Company accounts for income taxes under ASC 740, Income Taxes. Under the asset and liability method of ASC 740, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the enactment occurs. A valuation allowance is provided for certain deferred tax assets if it is more likely than not that the Company will not realize tax assets through future operations. Deferred tax assets or liabilities were offset by a 100% valuation allowance, therefore there has been no recognized benefit as of December 31, 2020 and 2019, respectively. Further it is unlikely with the change of control that the Company will have the ability to realize any future tax benefits that may exist.

Commitments and Contingencies

The Company follows ASC 450-20, Loss Contingencies, to report accounting for contingencies. Liabilities for loss contingencies arising from claims, assessments, litigation, fines and penalties and other sources are recorded when it is probable that a liability has been incurred and the amount of the assessment can be reasonably estimated.

Net income (loss) per share is calculated in accordance with ASC 260, Earnings Per Share. The weighted-average number of common shares outstanding during each period is used to compute basic earnings or loss per share. Diluted earnings or loss per share is computed using the weighted average number of shares and diluted potential common shares outstanding. Dilutive potential common shares are additional common shares assumed to be exercised.

Basic net income (loss) per common share is based on the weighted average number of shares of common stock outstanding at December 31, 2020 and 2019. Due to net operating loss, there is no presentation of dilutive earnings per share, as it would be anti-dilutive.

Forgiveness of Indebtedness

The Company follows the guidance of AS 470.10 related to debt forgiveness and extinguishment. Debts of the Company are considered extinguished when the statute of limitations in the applicable jurisdiction expires or when terminated by judicial authority such as the granting of a declaratory judgment. Debts to related parties or shareholders are treated as capital transactions when forgiven or extinguished and credited to additional paid in capital. Debts to non-related parties are treated as other income when forgiven or extinguished.

Recent Accounting Pronouncements

We have reviewed all the recently issued, but not yet effective, accounting pronouncements and we do not believe any of these pronouncements will have a material impact on the Company.

In August 2017, the FASB issued ASU No. 2017-12, Derivatives and Hedging (Topic 815), which changes both the designation and measurement guidance for qualifying hedging relationships and the presentation of hedge results, in order to better align an entity's risk management activities and financial reporting for hedging relationships. The amendments expand and refine hedge accounting for both nonfinancial and financial risk components and align the recognition and presentation of the effects of the hedging instrument and the hedged item in the financial statements. FASB ASU No. 2017-12 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. We are still evaluating the impact that this guidance will have on our financial position or results of operations, and we have not yet determined whether we will early adopt FASB ASU No. 2017-12.

In March 2016, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2016-09, Compensation – Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting. This guidance changes how companies account for certain aspects of share-based payments to employees. Among other things, under the new guidance, companies will no longer record excess tax benefits and certain tax deficiencies in additional paid-in-capital ("APIC"), but will instead record such items as income tax expense or benefit in the income statement, and APIC pools will be eliminated. Companies will apply this guidance prospectively. Another component of the new guidance allows companies to make an accounting policy election for the impact of forfeitures on the recognition of expense for share-based payment awards, whereby forfeitures can be estimated, as required today, or recognized when they occur. If elected, the change to recognize forfeitures when they occur needs to be adopted using a modified retrospective approach. All of the guidance will be effective for the Company in the fiscal year beginning January 1, 2018. Early adoption is permitted. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In February 2016, the FASB issued ASU No. 2016-02, Leases (Topic 842), which establishes new accounting and disclosure requirements for leases. FASB ASU No. 2016-02 requires lessees to classify most leases as either finance or operating leases and to initially recognize a lease liability and right-of-use asset. Entities may elect to account for certain short-term leases (with a term of 12 months or less) using a method similar to the current operating lease model. The statements of operations will include, for finance leases, separate recognition of interest on the lease liability and amortization of the

right-of-use asset and for operating leases, a single lease cost, calculated so that the cost of the lease is allocated over the lease term on a straight-line basis. While we are in the early stages of our implementation process for FASB ASU No. 2016-02, and have not yet determined its impact on our financial position or results of operations, these leases would potentially be required to be presented on the balance sheet in accordance with the requirements of FASB ASU No. 2016-02. FASB ASU No. 2016-02 is effective for annual reporting periods beginning after December 15, 2018, including interim periods within those annual reporting periods, with early adoption permitted. FASB ASU No. 2016-02 must be applied using a modified retrospective approach, which requires recognition and measurement of leases at the beginning of the earliest period presented, with certain practical expedients available.

In July 2015, the FASB issued ASU No. 2015-11, Inventory (Topic 330): Simplifying the Measurement of Inventory. The guidance requires an entity to measure inventory at the lower of cost or net realizable value, which is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation, rather than the lower of cost or market in the previous guidance. This amendment applies to inventory that is measured using first-in, first-out (FIFO). This amendment is effective for public entities for fiscal years beginning after December 15, 2016, including interim periods within those years. A reporting entity should apply the amendments prospectively with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently evaluating the impact of this guidance, if any, on its financial statements and related disclosures.

In June 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers ("ASU 2014-09"), which requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers. ASU 2014-09 will replace most existing revenue recognition guidance in U.S. generally accepted accounting principles when it becomes effective. In July 2015, the FASB deferred the effective date of the standard by an additional year; however, it provided companies the option to adopt one year earlier, commensurate with the original effective date. Accordingly, the standard will be effective for the Company in the fiscal year beginning January 1, 2018, with an option to adopt the standard for the fiscal year beginning January 1, 2017. The Company is currently evaluating this standard and has not yet selected a transition method or the effective date on which it plans to adopt the standard, nor has it determined the effect of the standard on its financial statements and related disclosures.

NOTE 4 - INCOME TAXES

Income taxes are provided based upon the liability method. Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against deferred tax assets if management does not believe the Company has met the "more likely than not" standard imposed by accounting standards to allow recognition of such an asset.

Deferred tax assets/liabilities were as follows as of December 31, 2020 and 2019:

Description	31-Dec-20	31-Dec-19
Net operating loss carry forward	25,493,293	25,493,293
Valuation allowance	(25,493,293)	(25,493,293)
Total	\$ -	\$ -

As of December 31, 2020, the Company expected no net deferred tax assets to be recognized, resulting from net operating loss carry forwards. Deferred tax assets were offset by a corresponding allowance of 100%.

Risks and Uncertainties

The Company's operations are subject to significant risks and uncertainties including financial, operational and regulatory risks, including the potential risk of business failure.

The Company has entered into no contracts during the year as follows:

Legal and other matters

In the normal course of business, the Company may become a party to litigation matters involving claims against the Company. The Company's management is aware of a garnishment order that was previously served to the Company's Stock Transfer Agents. The Company's attorneys are reviewing the garnishment order to ascertain its implication to the company's financial statements. Aside from the court order discussed above, The Company's management is unaware of any pending or threatened assertions and there are no current matters that would have a material effect on the Company's financial position or results of operations.

NOTE 8 - SUBSEQUENT EVENTS

Management has evaluated subsequent events through the date of filing the consolidated financial statements with OTC Markets, the date the consolidated financial statements were available to be issued. Management is not aware of any significant events that occurred subsequent to the balance sheet date that would have a material effect on the consolidated financial statements thereby requiring adjustment or disclosure, other than those noted below:

On June 23, 2021, Alpharidge Capital, LLC, a shareholder of the Company, served a demand to the Company, at last address of record, to comply with the Nevada Secretary of State statues N.R.S. 78.710 and N.R.S. 78.150. On July 16, 2021, a petition was filed against the Company in the District Court of Clark County, Nevada, entitled "In the Matter of NW Tech Capital, Inc., a Nevada corporation" under case number A-21-837989-P by Alpharidge Capital, LLC, along with an Application for Appointment of Custodian, after several attempts to get prior management to revive the Company's Nevada charter, which had been dissolved.

On August 31, 2021, the District Court of Clark County, Nevada entered an Order Granting Application for Appointment of Alpharidge Capital, LLC (the "Order"), as Custodian of the Company. Pursuant to the Order, the Alpharidge Capital, LLC (the "Custodian") has the authority to take any actions on behalf of the Company, that are reasonable, prudent or for the benefit of pursuant to, including, but not limited to, issuing shares of stock and issuing new classes of stock, as well as entering in contracts on behalf of the Company. In addition, the Custodian, pursuant to the Order, is required to meet the requirements under the Nevada charter.

On August 31, 2021, pursuant to a Securities Purchase Agreement (SPA) the Custodian granted to Community Economic Development Capital, LLC. (CED Capital), 500 Series A preferred shares (convertible at 1 into 200,000,000 common shares, and the converted shares have 1/1 voting rights similar to all common stock) in exchange for \$35,000 which the Company used to fund the reinstatement of the Company with the State of Nevada, settlement of the Stock Transfer Agent's balance. CED Capital also undertook to make all reasonable efforts to provide adequate current public information to meet the requirements under the Securities Act of 1933.

On August 31, 2021, the Custodian appointed Frank I Igwealor, who is associated to Alpharidge Capital, LLC., as the Company's sole officer, secretary, treasurer and director.

The purchaser of the 500 Series A preferred shares has control of the Company through super voting rights over all classes of stock and the 500 Series A preferred shares are convertible into 100,000,000,000 (500 Series A preferred shares multiplied by 200,000,000) shares of the Company's common stock. However, the court appointed control still remains with the Custodian until the Custodian files a petition with the District Court of Clark County, Nevada to relinquish custodianship and control of the Company.

On July 16, 2021, the Company filed a Certificate of Revival with the Secretary State of the State of Nevada, which reinstated the Company's charter and appointed a new Resident Agent in Nevada.

The company is currently engaged with forensic an assets recovery consultant to help recover the assets of the company from previous management to make shareholders whole again. The company is currently a non-operating holding company.

The Company intends to go after the Toxic lenders and predatory lenders that have been milking the corporation and depriving the shareholders of stability because of the nonstop dilutions they had subjected the company to these past years.

The Company recently wrote down all of its assets to zero following a change of management because new management had doubts about the value of each assets and their availability for the Company's utilization. Following the management change, the Company has funded its operation with advances from the new management. The company hopes to continue with this arrangement until it could raise sufficient capital to stand on its own feet. The company has also engaged with forensic accountants and assets recovery consultants to help recover the assets of the company from previous management and predatory lenders to make shareholders whole again.

10. Add § 240.12g-6 to read as follows:

§ 240.12g-6 Exemption for securities issued pursuant to section 4(a)(6) of the Securities Act of 1933.

(a) For purposes of determining whether an issuer is required to register a security with the Commission pursuant to Section 12(g)(1) of the Act (15 U.S.C. 78l(g)(1)), the definition of held of record shall not include securities issued pursuant to the offering exemption under section 4(a)(6) of the Securities Act (15 U.S.C. 77d(a)(6)) by an issuer that:

- (1) Is current in filing its ongoing annual reports required pursuant to § 227.202 of this chapter;
- (2) Has total assets not in excess of \$25 million as of the end of its most recently completed fiscal year; and
- (3) Has engaged a transfer agent registered pursuant to Section 17A(c) of the Act to perform the function of a transfer agent with respect to such securities.

(b) An issuer that would be required to register a class of securities under Section 12(g) of the Act as a result of exceeding the asset threshold in paragraph (2) may continue to exclude the relevant securities from the definition of "held of record" for a transition period ending on the penultimate day of the fiscal year two years after the date it became ineligible. The transition period terminates immediately upon the failure of an issuer to timely file any periodic report due pursuant to § 227.202 at which time the issuer must file a registration statement that registers that class of securities under the Act within 120 days

Exhibit A: Frank I. Igwealor - Other positions held

"In April of 2021, Alparidge Capital Inc. a company majority owned by Frank Igwealor, launched its Entrepreneurship Development Initiative which entails:

(1) Portfolio – acquiring OTC trading companies with stop signs and cleaning them up to become Pink Current, then developing their businesses or merging them with emerging businesses controlled by Alparidge-trained entrepreneurs; and (2) Custodianship – use the custodianship process in Nevada and Delaware to acquire custodianship of abandoned OTC-trading companies, clean them up to become Pink Current, then merging them with emerging businesses controlled by Alparidge-trained entrepreneurs.

On April 22, 2021, Alparidge retained a Nevada based Attorney to petition for custodianship of Mondial Ventures, Inc. Alparidge later lost the attempt and expensed all related costs as Professional fees – legal.

On May 5, 2021, Alparidge purchased in private transactions, controlling interest in Labwire, Inc., (LBWR) and Waypoint Biomedical, Inc., both of which bought Pink Current. As at the date of this report, Alparidge' Entrepreneurship Development Initiative Portfolio has also purchased Nano Mobile Healthcare, Inc.

EXHIBIT B: SAMPLE PURCHASE AGREEMENT

THIS INSTRUMENT AND ANY SECURITIES ISSUABLE PURSUANT HERETO HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, AS AMENDED (THE “SECURITIES ACT”), OR UNDER THE SECURITIES LAWS OF CERTAIN STATES. THESE SECURITIES MAY NOT BE OFFERED, SOLD OR OTHERWISE TRANSFERRED, PLEDGED OR HYPOTHECATED EXCEPT AS PERMITTED IN THIS SAFE AND UNDER THE ACT AND APPLICABLE STATE SECURITIES LAWS PURSUANT TO AN EFFECTIVE REGISTRATION STATEMENT OR AN EXEMPTION THEREFROM.

NW Tech Capital, Inc.

PP SAFE NOTE

(Principle Protected Simple Agreement for Future Equity)

THIS CERTIFIES THAT in exchange for the payment by _____ [Investor Name] (the “Investor”) of \$ _____ (the “Purchase Amount”) on or about _____ [Date], NW Tech Capital, Inc. a Delaware corporation (the “Company”), issues to the Investor the right to certain shares of the Company’s Common Stock, subject to the terms described below.

The “Discounted Conversion Rate” is 75%.

See **Section 2** for certain additional defined terms.

1. Events

(a) **Liquidity Event.** If there is a Liquidity Event before the termination of this Safe, this Safe will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds, due and payable to the Investor immediately prior to, or concurrent with, the consummation of such Liquidity Event, equal to the greater of (i) the Purchase Amount (the “Cash-Out Amount”) or (ii) the amount payable on the number of shares of Common Stock equal to the Purchase Amount divided by the Liquidity Price (the “Conversion Amount”). If any of the Company’s securityholders are given a choice as to the form and amount of Proceeds to be received in a Liquidity Event, the Investor will be given the same choice, *provided* that the Investor may not choose to receive a form of consideration that the Investor would be ineligible to receive as a result of the Investor’s failure to satisfy any requirement or limitation generally applicable to the Company’s securityholders, or under any applicable laws.

Notwithstanding the foregoing, in connection with a Change of Control intended to qualify as a tax-free reorganization, the Company may reduce the cash portion of Proceeds payable to the Investor by the amount determined by its board of directors in good faith for such Change of Control to qualify as a tax-free reorganization for U.S. federal income tax purposes, provided that such reduction (A) does not reduce the total Proceeds payable to such Investor and (B) is applied in the same manner and on a pro rata basis to all

securityholders who have equal priority to the Investor under Section 1(d).

(b) **Dissolution Event.** If there is a Dissolution Event before the termination of this Safe, the Investor will automatically be entitled (subject to the liquidation priority set forth in Section 1(d) below) to receive a portion of Proceeds equal to the Cash-Out Amount, due and payable to the Investor immediately prior to the consummation of the Dissolution Event.

(c) **Liquidation Priority.** In a Liquidity Event or Dissolution Event, this Safe is intended to operate like standard non-participating Preferred Stock. The Investor’s right to receive its Cash-Out Amount is:

- (i) Junior to payment of outstanding indebtedness and creditor claims, including contractual claims for payment and convertible promissory notes (to the extent such convertible promissory notes are not actually or notionally converted into Capital Stock);
- (ii) On par with payments for other Safes and/or Preferred Stock, and if the applicable Proceeds are insufficient to permit full payments to the Investor and such other Safes and/or Preferred Stock, the applicable Proceeds will be distributed pro rata to the Investor and such other Safes and/or Preferred Stock in proportion to the full payments that would otherwise be due; and
- (iii) Senior to payments for Common Stock.

The Investor’s right to receive its Conversion Amount is (A) on par with payments for Common Stock and other Safes and/or Preferred Stock who are also receiving Conversion Amounts or Proceeds on a similar as-converted to Common Stock basis, and (B) junior to payments described in clauses (i) and (ii) above (in the latter case, to the extent such payments are Cash-Out Amounts or similar liquidation preferences).

(d) **Termination.** This Safe will automatically terminate (without relieving the Company of any obligations arising from a prior breach of or non-compliance with this Safe) immediately following the earliest to occur of: (i) the issuance of Capital Stock to the Investor pursuant to the automatic conversion of this Safe under Section 1(a); or (ii) the payment, or setting aside for payment, of amounts due the Investor pursuant to Section 1(b) or Section 1(c).

2. Definitions

“**Accredited Investor**” means any person who comes within any of the categories set forth in Rule 501(a) of Regulation D, or who the seller reasonably believes comes within any of such categories, at the time of the sale of the securities to that person. 3. *Company Representations*

(a) The Company is a corporation duly organized, validly existing and in good standing under the laws of its state of incorporation, and has the power and authority to own, lease and operate its properties and carry on its business as now conducted.

(b) The execution, delivery and performance by the Company of this Safe is within the power of the Company and has been duly authorized by all necessary actions on the part of the Company (subject to section 3(d)). This Safe constitutes a legal, valid and binding obligation of the Company, enforceable against the Company in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors’ rights generally and general principles of equity. To its knowledge, the Company is not in violation of (i) its current certificate of incorporation or bylaws, (ii) any material statute, rule or regulation applicable to the Company or (iii) any material debt or contract to which the Company is a party or by which it is bound, where, in each case, such violation or default, individually, or together with all such violations or defaults, could reasonably be expected to have a material adverse effect on the Company.

(c) The performance and consummation of the transactions contemplated by this Safe do not and will not: (i) violate any material judgment, statute, rule or regulation applicable to the Company; (ii) result in the acceleration of any material debt or contract to which the Company is a party or by which it is bound; or (iii) result in the creation or imposition of any lien on any property, asset or revenue of the Company or the suspension, forfeiture, or nonrenewal of any material permit, license or authorization applicable to the Company, its business or operations.

(d) No consents or approvals are required in connection with the performance of this Safe, other than: (i) the Company’s corporate approvals; (ii) any qualifications or filings under applicable securities laws; and (iii) necessary corporate approvals for the authorization of Capital Stock issuable pursuant to Section 1.

(e) To its knowledge, the Company owns or possesses (or can obtain on commercially reasonable terms) sufficient legal rights to all patents, trademarks, service marks, trade names, copyrights, trade secrets, licenses, information, processes and other intellectual property rights necessary for its business as now conducted and as currently proposed to be conducted, without any conflict with, or infringement of the rights of, others.

4. *Investor Representations*

(a) The Investor has full legal capacity, power and authority to execute and deliver this Safe and to perform its obligations hereunder. This Safe constitutes valid and *binding obligation of the Investor, enforceable in accordance with its terms, except as limited by bankruptcy, insolvency or other laws of general application relating to or affecting the enforcement of creditors' rights generally and general principles of equity.*

(b) The Investor has been advised that this Safe and the underlying securities have not been registered under the Securities Act, or any state securities laws and, therefore, cannot be resold unless they are registered under the Securities Act and applicable state securities laws or unless an exemption from such registration requirements is available. Under Regulation CF of the Securities Act of 1933 the securities being offered may not be transferred by any purchaser of such securities during the one year period beginning when the securities were issued, unless such securities are transferred: (1) to the issuer; (2) to an accredited investor; (3) as part of an offering registered with the U.S. Securities and Exchange Commission; or (4) to a member of the family of the purchaser or the equivalent, to a trust controlled by the purchaser, to a trust created for the benefit of a member of the family of the purchaser or the equivalent, or in connection with the death or divorce of the purchaser or other similar circumstance.

(c) The Investor is purchasing this Safe and the securities to be acquired by the Investor hereunder for its own account for investment, not as a nominee or agent, and not with a view to, or for resale in connection with, the distribution thereof, and the Investor has no present intention of selling, granting any participation in, or otherwise distributing the same.

(d) The Investor has such knowledge and experience in financial and business matters that the Investor is capable of evaluating the merits and risks of such investment, is able to incur a complete loss of such investment without impairing the Investor's financial condition and is able to bear the economic risk of such investment for an indefinite period of time.

5. *Miscellaneous*

(a) Any provision of this Safe may be amended, waived or modified by written consent of the Company and either (i) the Investor or (ii) the majority-in-interest of all then-outstanding Safes with the same "Post-Money Valuation Cap" and "Discount Rate" as this Safe (and Safes lacking one or both of such terms will be considered to be the same with respect to such term(s)), *provided that* with respect to clause (ii): (A) the Purchase Amount may not be amended, waived or modified in this manner, (B) the consent of the Investor and each holder of such Safes must be solicited (even if not obtained), and (C) such amendment, waiver or modification treats all such holders in the same manner. "Majority-in-interest" refers to the holders of the applicable group of Safes whose Safes have a total Purchase Amount greater than 50% of the total Purchase Amount of all of such applicable group of Safes.

(b) Any notice required or permitted by this Safe will be deemed sufficient when delivered personally or by overnight courier or sent by email to the relevant address listed on the signature page, or 48 hours after being deposited in the U.S. mail as certified or registered mail with postage prepaid, addressed to the party to be notified at such party's address listed on the signature page, as subsequently modified by written notice.

(c) The Investor is not entitled, as a holder of this Safe, to vote or be deemed a holder of Capital Stock for any purpose other than tax purposes, nor will anything in this Safe be construed to confer on the Investor, as such, any rights of a Company stockholder or rights to vote for the election of directors or on any matter submitted to Company stockholders, or to give or withhold consent to any corporate action or to receive notice of meetings, until shares have been issued on the terms described in Section 1. However, if the Company pays a dividend on outstanding shares of Common Stock (that is not payable in shares of Common Stock) while this Safe is outstanding, the Company will pay the Dividend Amount to the Investor at the same time.

(d) Neither this Safe nor the rights in this Safe are transferable or assignable, by operation of law or otherwise, by either party without the prior written consent of the other; *provided, however*, that this Safe and/or its rights may be assigned without the Company's consent by the Investor (i) to the Investor's estate, heirs, executors, administrators, guardians and/or successors in the event of Investor's death or disability, or (ii) to any other entity who directly or indirectly, controls, is controlled by or is under common control with the Investor, including, without limitation, any general partner, managing member, officer or director of the Investor, or any venture capital fund now or hereafter existing which is controlled by one or more general partners or managing members of, or shares the same management company with, the Investor; and *provided, further*, that the Company may assign this Safe in whole, without the consent of the Investor, in connection with a reincorporation to change the Company's domicile.

(e) In the event any one or more of the provisions of this Safe is for any reason held to be invalid, illegal or unenforceable, in whole or in part or in any respect, or in the event that any one or more of the provisions of this Safe operate or would prospectively operate to invalidate this Safe, then and in any such event, such provision(s) only will be deemed null and void and will not affect any other provision of this Safe and the remaining provisions of this Safe will remain operative and in full force and effect and will not be affected, prejudiced, or disturbed thereby.

(f) To the extent the Conversion Price of the Company's Common Stock closes below the par value per share, the Company will take all steps necessary to solicit the consent of the stockholders to reduce the par value to the lowest value possible under law.

(g) If the Trading Price cannot be calculated for such security on such date in the manner provided above, the Trading Price shall be the fair market value as mutually determined by the Company and the holders of a majority in interest of the Notes being converted for which the calculation of the Trading Price is required in order to determine the Conversion Price of such Notes. "Trading Day" shall mean any day on which the Common Stock is tradable for any period on the OTC Pink, OTCQB or on the principal securities
